**PRODUCT AND COMPANY IDENTIFICATION**

**Manufacturer:**
The Blaster Chemical Companies, Inc.
8500 Sweet Valley Drive
Valley View, Ohio 44125
(216) 901-5800
(216) 901-5801 fax
www.blasterproducts.com

**Product Name:** PB Penetrating Catalyst
**Revision Date:** 3/13/06
**MSDS Number:** PB - Aerosol
**Common Name:** PB Blaster
**Product Code:** 16-PB, 8-PB, 8-PBS, PBTS, 20-PB, 26-PB

**COMPOSITION/INFORMATION ON INGREDIENTS**

**HAZARDS IDENTIFICATION**

**Route of Entry:** Eyes, skin, inhalation, ingestion

**Target Organs:**

**Inhalation:** Inhalation of spray mist may cause irritation to the respiratory tract.

**Skin Contact:** Repeated or prolonged contact with skin may cause mild irritation and possibly dermatitis.

**Eye Contact:** Likely to cause immediate or delayed irritation. Irritation will show as redness and/or swelling of the eyes.

**Ingestion:** Ingestion may cause irritation to the mouth, esophagus and stomach.

**Notice:** Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

**May aggravate pre-existing skin and respiratory disorders.**
**FIRST AID MEASURES**

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Continue to monitor. Get medical attention.

Skin Contact: Remove contaminated clothing immediately! Wash skin with soap and water. If irritation develops, seek medical attention.

Eye Contact: Flush eye(s) with water for 15 minutes. Get medical attention. If eye irritation persists, obtain medical treatment.

Ingestion: Do not induce vomiting! Get medical attention immediately!

**FIRE FIGHTING MEASURES**

Flash point: 155°F  ASTM D-56 (TCC)

Extinguishing Media: Dry chemical, carbon dioxide or foam is recommended. Water may be ineffective for extinguishment, but can be useful in minimizing or dispersing vapors, protecting personnel and cooling containers. If containers are not properly cooled they can rupture in the heat of a fire. Avoid spreading burning liquid with water used for cooling purposes.

Unusual Fire & Explosion Hazards: Level 3 Aerosols - Contents Under Pressure!

**ACCIDENTAL RELEASE MEASURES**

Leaking aerosol cans should be put into suitable container until the internal pressure has dissipated. Use suitable absorbents to collect liquid product. Consult regulations for the disposal of the container, liquid and absorbents.

**HANDLING AND STORAGE**

Handling Precautions: Use in accordance with good industrial workplace practices. Avoid unnecessary contact. Wash thoroughly after handling. Use with good ventilation.

Storage Requirements: Store in a dry place away from excessive heat. Store containers with lids on and properly labeled.

Do not store at temperatures above 120 degrees F.

**EXPOSURE CONTROLS/PERSONAL PROTECTION**

Engineering Controls: Eye wash stations and emergency showers should be immediately available.

Protective Equipment: Use with good ventilation. Maintain airborne concentrations below OSHA established exposure limits of ingredients in Section 2.

Skin and clothing: Excessive contact should be avoided. Neoprene gloves, boots and aprons will provide adequate protection when contact cannot be avoided. Remove and wash any contaminated clothing immediately. Wash thoroughly after handling.

Respiratory: Good general ventilation should be sufficient to control airborne levels. Maintain airborne concentrations below OSHA established exposure limits of ingredients in Section 2.

Exposure Guidelines/Other: The Blaster Chemical Companies takes no responsibility for determining what measures are required for personal protection in any specific application. This information should be used with discretion.
9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Orange viscous oily
Physical State: Liquid
Odor: Heavy aromatic
pH: Not determined
Vapor Pressure: Not determined
Vapor Density: >1 (air = 1)

Boiling Point: 352 F
Freezing/Melting Pt.: Not determined
Solubility: nil
Spec Grav./Density: 0.87 (water = 1)

Heat Value: Not determined
VOC: Not determined
Evap. Rate: <1 (NBA = 1)
Bulk Density: Not determined
Octanol: Not applicable
Molecular Weight: Not determined
Particle Size: Not applicable
Softening Point: Not determined
Viscosity: Not determined
Percent Volatile: Not determined
Sat. Vap. Concentrat.: Not determined
Molecular Formula: Not determined

10 STABILITY AND REACTIVITY

Stability: This product is stable.
Conditions to avoid: Avoid excessive heat, sources of ignition and excessive water.

Materials to avoid (incompatibility): Avoid contact with strong oxidizing agents and strong reducing agents (strong acids or bases.) Avoid mixture with water.

Hazardous Decomposition products: Carbon monoxide, carbon dioxide, and various hydrocarbons.
Hazardous Polymerization: Will not occur.

11 TOXICOLOGICAL INFORMATION

Toxicological information on this product as a mixture has not been determined. See section 15 for reportable ingredients.

12 ECOLOGICAL INFORMATION

Ecological information on this product as a mixture has not been determined.

13 DISPOSAL CONSIDERATIONS

Used or unused product should be disposed of in accordance with local, state, and federal regulations. Some special regulations may exist for the disposal of empty aerosol containers.

Empty containers may contain residual pressure and contents. They should be handled with the same precautions as the product.
TRANSPORT INFORMATION

Dept. of Transportation (DOT):

This product, as it leaves Blaster's facilities, meets the definitions set forth in CFR 49 part 173.150c as a "consumer commodity." Allowing for certain exceptions (173.156) for domestic surface (ground) shipments.

**Proper shipping name:** Consumer Commodity  
**Hazard class:** ORM-D

International (IMDT-IATA):

**Proper shipping name:** Aerosols, Limited Quantities  
**Hazard class:** 2 Flammable Compressed Gas  
**UN Number:** 1950
