Hazardous Products of Combustion
May form: carbon dioxide and carbon monoxide, various hydrocarbons.

Fire and Explosion Hazards
Never use welding or cutting torch on or near drum (even empty) because product (even just residue) can ignite explosively.

Extinguishing Media
regular foam, carbon dioxide, dry chemical.

Fire Fighting Instructions
Water or foam may cause frothing which can be violent and possibly endanger the life of the firefighter. Wear a self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode with appropriate turn-out gear and chemical
resistant personal protective equipment. Refer to the personal protective equipment section of this MSDS.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Eye Protection
   Wear safety glasses in compliance with OSHA regulations. (Consult your safety representative.)

Skin Protection
   Wear resistant gloves such as: neoprene, Wear normal work clothing covering arms and legs.

Respiratory Protections
   If workplace exposure limit(s) of product or any component is exceeded (See Exposure Guidelines), a NIOSH/MSHA approved air supplied respirator is advised in absence of proper environmental control. OSHA regulations also permit other NIOSH/MSHA respirators (negative pressure type) under specified conditions (consult your industrial hygienist). Engineering or administrative controls should be implemented to reduce exposure.

Engineering Controls
   Provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below TLV(s).
